Transitions Pathways and Risk Analysis for Climate Change Mitigation and Adaptation Strategies

TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

TRANSRISK: LESSONS LEARNT

FIGHTING AND ADAPTING TO CLIMATE CHANGE

Policy Co-Creation Workshop

on the impact of European research and innovation projects

April 28th, 2021

Vassilis Stavrakas

Senior Research Associate

Technoeconomics of Energy Systems laboratory (TEESlab)

University of Piraeus Research Center (UPRC)

TEESlab
Technoeconomics of Energy Systems

PARTNERSHIP

TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

Who we are

SPRU - Science Technology Policy Research, University of Sussex	**UK**
BC3 - Basque Centre for Climate Change	**ES**
CE - Cambridge Econometrics	**UK**
ECN - Energy Research Centre of the Netherlands	**NL**
ETH Zurich - Swiss Federal Institute of Technology (funded by Swiss Gov't)	**CH**
IBS - Institute for Structural Research	**PL**
JIN - Joint Implementation Network	**NL**
NTUA - National Technical University of Athens	**GR**
SEI - Stockholm Environment Institute/ University of York	**SE, KE**
UniGraz - University of Graz	**AT**
TEESlab UPRC– University of Piraeus Research Center	**GR**
CLAPESUC - French Environment and Energy Management Agency	**CL**

Project Information

TRANSrisk
Grant agreement ID: 642260
Project website

Start date 1 September 2015
End date 31 December 2018

Funded under
H2020-EU.3.5.1.

Overall budget
€ 7 974 242,50

EU contribution
€ 7 454 017,50

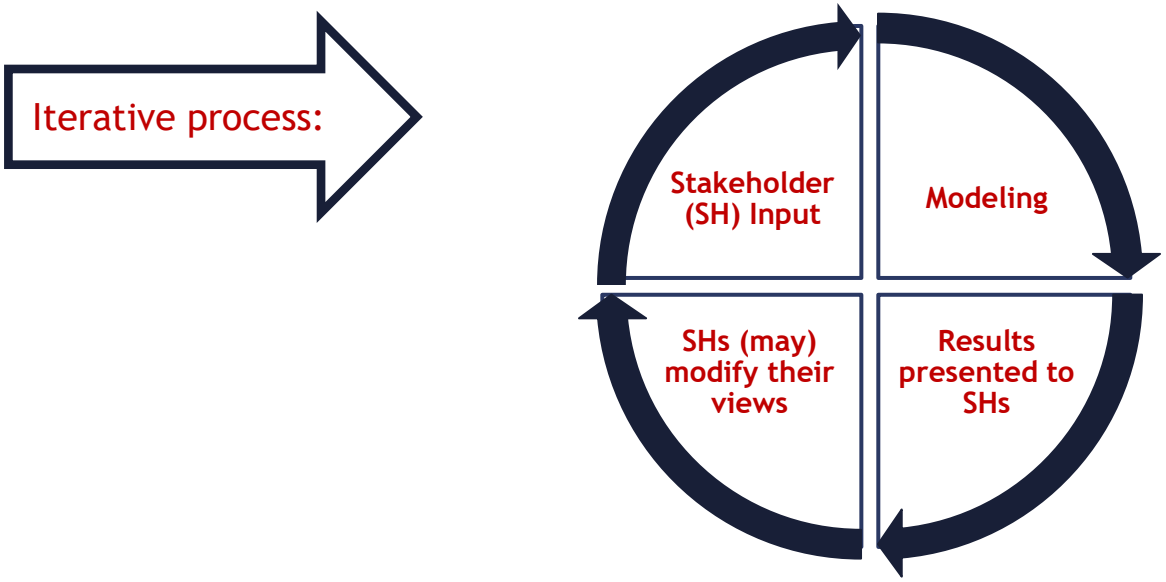
Coordinated by
THE UNIVERSITY OF SUSSEX
United Kingdom

- **12** partners
- **70+** researchers
- Interdisciplinary team

Overarching Research Questions

What are the **costs**, **benefits** and **risks** & **uncertainties** associated with *feasible* transitions pathways for climate change mitigation policies?

1. How should the **future** look like and how might we get there?
2. What **changes** are required for us to get to our **desired** future(s)?
3. What are the **policy options** based on the (national) context?



TRANSRISK PATHWAYS APPROACH

Stakeholder inputs

1. Narratives Disaggregate (details)

- Where do we want to go?
- What *preferred* actions are needed to get there?
  - (e.g., technology, behavioral change, policies)

Quantitative inputs

2. Model Scenarios Aggregate (generalisations)

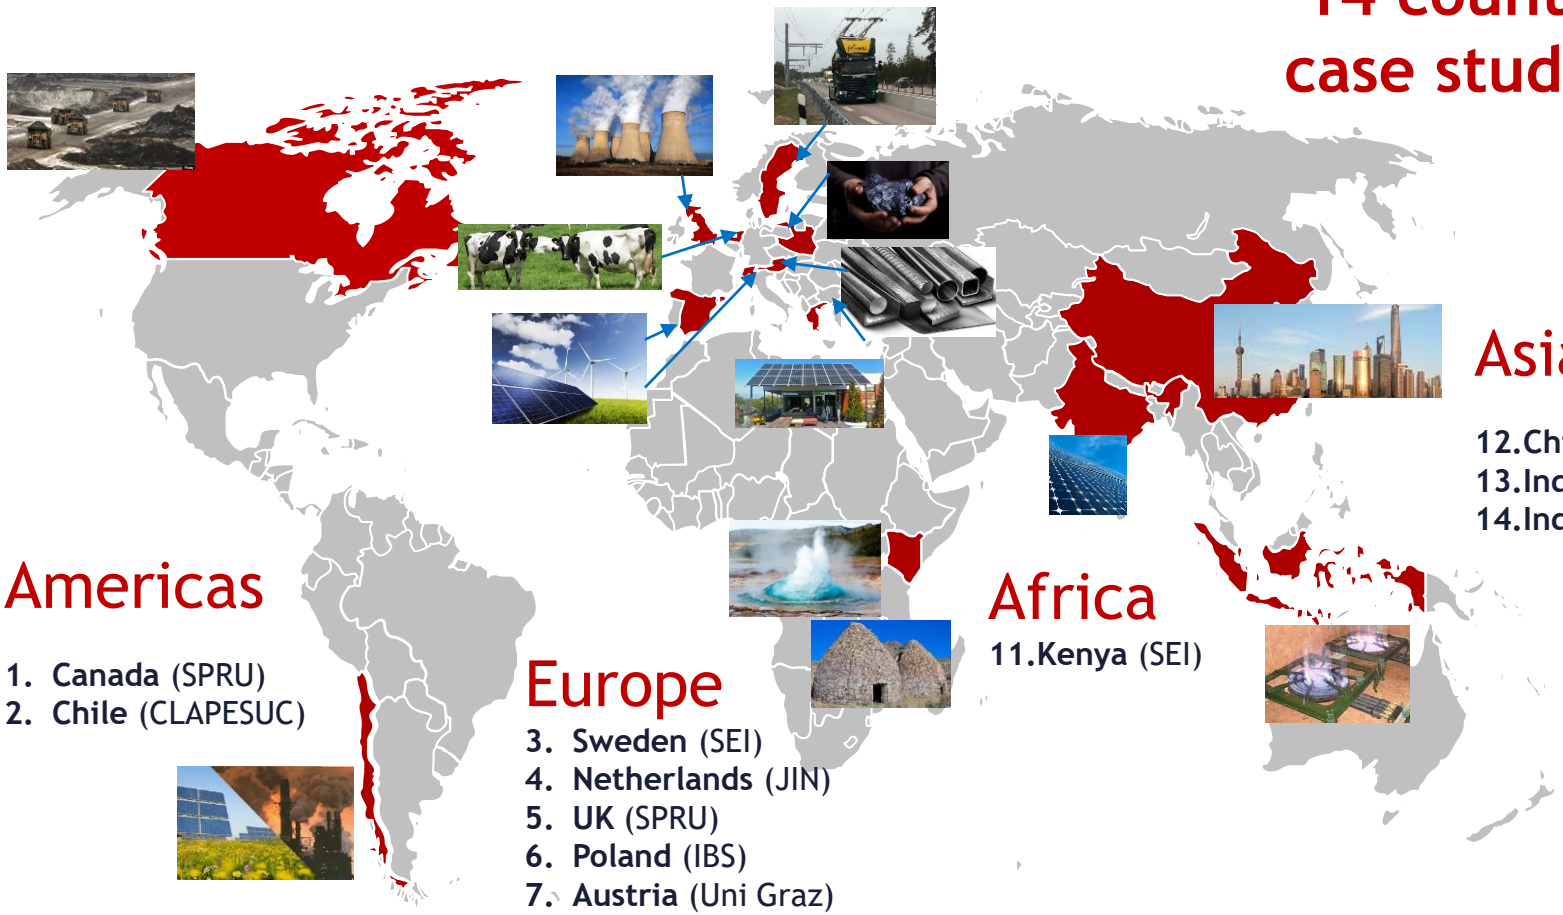
- What resources are needed to get to the desire future?
  - (e.g., optimization models- back casting)
- How might the future look like if the changes and actions are to take place?
  - (e.g., simulation model- forecasting castings)

see: https://www.camecon.com/blog/what-is-macroeconomic-modelling-and-why-do-we-do-it/

Case Study Countries: Areas studied

TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

14 country case studies



Americas

1. **Canada** (SPRU)
2. **Chile** (CLAPESUC)

Europe

3. **Sweden** (SEI)
4. **Netherlands** (JIN)
5. **UK** (SPRU)
6. **Poland** (IBS)
7. **Austria** (Uni Graz)
8. **Switzerland** (ETHZ)
9. **Spain** (BC3)
10. **Greece** (NTUA/UPRC)

Africa

11. **Kenya** (SEI)

Asia

12. **China** (SPRU)
13. **India** (SPRU)
14. **Indonesia** (SEI)

Achievements

TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

1. Evaluating potential low carbon transition pathways

2. Harnessing the knowledge of stakeholders to inform and develop low carbon transition pathways

3. Integrating quantitative (computer models) and qualitative (stakeholder input) techniques in the assessment of potential low carbon transition pathways

4. Understanding the impact of feedback effects, policy synergies and conflicts

5. Identifying and understanding risks and uncertainties in low carbon transition pathways

6. Understanding what low carbon technologies are suitable for different areas of the World, and the barriers and opportunities to their deployment

7. Managing the work of a multi-national research project, and disseminating outputs

DISSEMINATION & OUTREACH (1/2)

CURRENT STATUS OF D&C ACTIVITIES*	
Logo and Graphic Guidelines	**16** Partners' Newsletters
1 Flyer, **3** Leaflets, **1** Booklet	**6** Infographics
9 Posters, **3** Presentations	**26** Scientific Publications
6 QR codes, **8** Templates	**45** Non-scientific & non-peer-reviewed publications
TRANSrisk Website (new material-updates)	**18** TRANSrisk Workshops
4 TRANSrisk Social Networks	**9** TRANSrisk Sessions at Conferences
Participation in **4** EU Platforms	**5** Workshops organised jointly with other EU projects
13 TRANSrisk Videos	**56** External events
11 TRANSrisk Newsletters	More than **200** links to TRANSrisk Website
10 TRANSrisk Press Releases	**29** Synergies with other EU projects

All **TRANSrisk Dissemination material & Information on activities available at the website*

DISSEMINATION & OUTREACH (2/2)

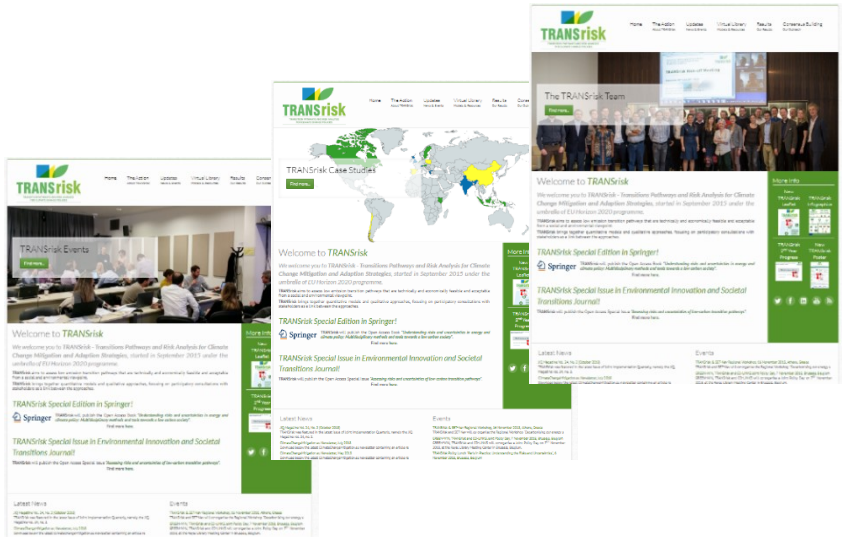
TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

#Research Cooperation Platforms

Climatechangemitigation.Eu (**23** *articles*)

Capacity4dev.eu (**68** *posts* - **7,914** *views*)

Energypedia (**40** *reports* - **7,073** *views*)



#Dissemination Channels

Website (**10,453** Visitors -**18,615** Visits - **52,405** Pageviews - **2,872** Report Downloads)

Mailing Lists (Newsletters, press releases)

NEXT STEPS FORWARD…

TRANSrisk
TRANSITION PATHWAYS AND RISK ANALYSIS FOR CLIMATE CHANGE POLICIES

HORIZON-CL5-2021-D1-01-05:

Better understanding of the interactions between
climate change impacts and risks, **mitigation** and **adaptation** options

- Enhanced **understanding**, supported by **quantitative** and **qualitative** analysis, of the **interaction**, **complementarity** and **trade-offs** between **adaptation** and **mitigation** measures and policies helping to overcome the **silo** approach within and between them and leading to more effective climate action policies.

- Better **knowledge** about the **risk and impacts of climate change** and their **interaction** with **mitigation** pathways, including their **feasibility** across various scenarios of global warming.
